

FOR IMMEDIATE RELEASE

The Heartbreak Prince's Divine Connection to Taylor Swift's "Tortured Poets Department" Album

San Diego, CA - Hugs Insane Ridiculous, owner of RockstarComputerHelp.com, will release his debut book, "Karma Is A God," the same day as Taylor Swift's album, "Tortured Poets Department," on 4/19/2024. Hugs, who legally changed his name in March 2024, believes his life has been a central inspiration for Swift's album.

Hugs claims he is likely the #1 person to earn the title "Poetry" in the past few thousand years. His journey, filled with symbolism and metaphysical connections, has led him to question if he is fulfilling a destiny related to the sayings "cherry on top" and "cherry" pertaining to virginity. As a top holy God and Lord in human form, Hugs' prestigious position and conceptual alignment with a holy marriage to Swift is believed to have influenced her embrace of the title "The Chairman."

Prophesied by psychic Hans Christian King to become a well-known healer and philosopher, Hugs expects this to manifest this year. His name, "Dr. Hugs," aligns with the most common prescription for helping people's health.

Hugs has evidence with date timestamps showing his relation to the concepts of "top tortured poet," "possibly pending eternal death," and "pillow cuddling multiple pillows each night" – aligning with Swift's album art and title. He owns the "#1 most epic Twitter account," @OppositeOfPimp, used as a private journal for over 12 years with 20,000+ tweets.

Hugs' credibility is bolstered by his RockstarComputerHelp.com business, church involvement, charitable goals, volunteering, and history as a Senior Software Engineer at Path1 Network Technologies. He values precision in his words and stands firmly behind his claims, offering a supremely scary oath regarding his honesty.

For more info, visit <http://HeartbreakPrince.com>. A longer much more detailed press release can be found on that site. "Karma Is A God" is scheduled to become available on Kindle Friday. A link will be added on his website when it's ready.
